

I am writing to inform you how important the KLOVE radio station is to me, my family and my community. This radio station is a permanent fixture in our home, car and church. My five year old daughter knows all of the songs and I never have to change the channel for fear that she'll hear something inappropriate. This is safe, encouraging and uplifting radio. Our communities NEED this type of entertainment and information. There are plenty of secular stations out there, but they don't provide safe and encouraging messages about love, family and faith. To be without this radio station would be a detriment to our society. There is enough darkness and filth in our world, this station provides light and hope.
